

## PENNSYLVANIA REPUBLICANS.

The Republicans of Pennsylvania are harmonious this year. Everything was lovely and serene in their State Convention at Harrisburg on Wednesday. John Cassa was made Permanent Chairman. He congratulated the convention on the spirit of harmony shown. He thought it was the forerunner of success in 1894, and believed that mistakes or blunders to-day would be political crimes. All Stalwarts should prove themselves Independents, while all Independents should prove themselves Stalwarts hereafter. He felt this to be a family gathering, under one roof, and advised any gentlemen who come to the convention with slates in their pockets to break them and throw the pieces out of the window. He announced on the recent vetoes of the Administration, and classed them as efforts to overcome the cost of an extra session. As to the extra session, he said, let the responsibility rest where it belongs. He reverted to the tariff, and named it as the issue of the coming campaign. The platform of principles as adopted is as follows:

The Republican party of Pennsylvania makes declaration of its principles as follows:

First—We unqualifiedly approve and demand the continuance of that system of protection to home industry which has proved itself to be the basis of national independence, an incentive to industrial skill and the development and guarantee of a just and adequate scale of wages for labor, and we denounce all attempts to reduce the scale of tariff below the level which will accomplish these objects.

That any surplus in the public treasury arising from redundant revenue should, after paying the national debt, as conditions permit be distributed from time to time to the several States on the basis of population, to relieve them from the burdens of local taxation and provide means for the education of their people.

That, as the depreciated trade dollar is largely in the hands of our laboring people and is a disturbing element in the business of the country, we declare it to be the duty of Congress to adopt such legislation as will insure its full redemption and its conversion into other coin for circulation.

That we protest against the practice of foreign Governments in aiding or enforcing the emigration of their pauper and criminal classes to this country, and we call upon the General Government to take proper steps to prevent the same.

The Republicans of Pennsylvania most heartily endorse the wise and conservative administration of President Arthur, and believe his administrative policy has, under the circumstances, done much to secure the present happy and prosperous condition of the country, and thus we recognize in him a faithful and worthy successor of our lamented martyr President, James A. Garfield.

We heartily approve of the provision made by the Republicans in Congress, for giving the patriot soldiers of the late war the preference, according to their qualifications, for positions under the Government. The soldiers and sailors, their widows and orphans, have the first claim on the care, protection and gratitude of the American people.

We commend every effort to inaugurate a thorough and correct civil service reform in all departments of the National and State administrations. We require that all offices bestowed within the party shall be upon the solid basis of fitness; the competent and faithful officers shall not be removed except for cause, and that ascertained. The popular will should be faithfully carried out by those holding office by favor of the party, and that the Republican party is unequivocally committed to an economical administration of the affairs of the commonwealth.

The Republican party of Pennsylvania hereby pledges itself to secure such legislation as will tend to the reform of the State and its municipalities, and more particularly pledges itself to provide for cities such reform charters as will correct existing abuses and promote good and economical government.

That the Democratic party in the Legislature of Pennsylvania is responsible for retarding the legitimate and necessary business of the Legislature, causing the calling of an extra session at an expense of more than \$200,000, and preventing a fair and just apportionment of State, Congressional, Legislative and Judicial Districts; and we hereby commend the action of the Republican Senate on these measures.

Whereas, It is the sense of this convention that the freest and fullest expression of Republican sentiment should be encouraged and sought in the primary meetings, which are the fountain of party action and the source of popular rule, and that the object be promoted by holding primaries for the election of delegates to the State Convention throughout the State, as far as practicable on some convenient date not remote from the convention; therefore be it

Resolved, That the State Committee be instructed to inquire into the expediency of fixing a uniform day throughout the State for holding primaries for the election of delegates to the State Convention.

The following nominations were made: For State Treasurer, William Linesey; Auditor General, James Niles. Adjourned.

President Arthur says he must postpone his Yellowstone trip until 1895, when he will be a private citizen. In certain contingencies, we presume he might be induced to postpone it until 1899.

## THE WOOL MARKET.

The Stagnation Prevalent—Low Prices—Prospective.

The San Francisco Post reports the Bay warehouses filled to overflowing with wool. All kinds are neglected except real choice, light conditioned Northern wools, that are strictly free, and the lighter grades of eastern Oregon, in both of which there is a fair amount of trade transacted. The Northern wools are sought chiefly for shipping, and Eastern Oregon for local scouring in a small way. The local mills at the present time are well supplied with wools, and they are running on full time. A good deal of the eastern Oregon has recently been cleaned out, and sold for shipment via Cape Horn per the George Stetson, that is not expected to sail for 30 days hence, and she will probably carry away 1,000,000 to 1,500,000 pounds. It is estimated that there are from 3,000 to 4,000 bales of wool lying at Los Angeles, being kept back by holders because they don't expect to get a market for it here. In Sonoma and Solano counties and in a number of bay towns there are more or less defective wools stored awaiting a market. Wools from Humboldt and Mendocino are generally the best clips that come to this market. Eastern Oregon is coming forward freely, every steamer bringing down a large supply, and, as a rule, the wools from that section are superior in condition to any that have arrived in the past two or three years. Considering the stagnation in the East and the disinclination of Eastern men to speculate as they used to do, trade is not very bad. There are no Eastern buyers in our market that buy to any extent. There is but little vim or push in the scourers. Many of them have been running their mills upon an extra stock of cheap fall wools, and they have done little in scouring spring wools, except what has been done for orders. We quote Southern wools and San Joaquin nominal; 12@14c for poor descriptions; 15@18c fair to choice. Eastern Oregon poor, heavy and shrinky 14@17c; fair to good 17@20c; very light to very choice 20@21c. Northern heavy and defective 18@20c; light defective 20@22c; good to choice 20@24c—only real choice bring 24c, the bulk of the trade bringing 22@23c.

Emperor William, whose age is eighty-six, is the oldest of the sovereigns, and Alfonso of Spain, who was twenty-five years old on his last birthday, the youngest. Queen Victoria is sixty-three, the Empress Augusta seventy-one, the Queen of Denmark sixty-five, the Empress of Brazil sixty, and the ex-Empress Eugenie fifty-six. The youngest Queens in Europe are the wife of the King of Spain, who is twenty-four, and the wife of the King of Serbia, who is one year younger.

Our exposition in Louisville is called the great Southern Exposition. Within late years a new era seems to have dawned for the Southern portion of our land, from being almost exclusively an agricultural people capabilities of manufacture, etc., have been developed wholly unguessed before, and this Exposition has been gotten up to stimulate them to still farther effort, as well as to let the world know what they have and do.

The Postoffice Department is in an enviable position. It is not only self-supporting, but yields a handsome surplus revenue. The surplus last quarter was \$1,119,877, which, added to \$3,509,442 surplus for the preceding nine months of the past fiscal year, makes a total excess of revenue over expenditure of \$3,629,323. The total postal receipts for the fiscal year were \$15,858,732; total expenditure, \$12,229,413.

The days grow longer or shorter as the traveler goes north or south of the equator. The longest day at London is sixteen hours and a half; at Hamburg, seventeen hours; at Stockholm, eighteen hours and a half. St. Petersburg, the capital of Russia, has eighteen hours in the longest and five in the shortest day.

Senator Pugh, of Alabama, regards it as most inevitable that President Arthur will be the Republican nominee for President. He says Arthur is the best President the country has had since the war. Praise from Sir Rupert is praise indeed.

The King of Spain has received from Prince Charles of Hohenzollern an urn containing the ashes and bones of the Cid, the greatest hero of Spanish romance. The vessel, which is of marble, has long been preserved at Sigüenza, and the gift was received with solemn ceremonies and sent to Burgos.

That kings are not exempt from the common ills of this life was exemplified the other day when the King of Belgium had his royal dignity considerably rattled while on horseback riding by being sent sprawling to the ground by a bicyclist, who ran into his horse.

## A CHANCE FOR A BONANZA.

Tributers Making Big Wages.

The Enterprise says:

The tributers working in the Baltimore mine, American Flat, have long been making more than \$4 per day, and now are making nearly \$10 per day. They are in a good streak of luck, and the indications now are that they are liable soon to find a regular bonanza. They were long following a rich streak of ore on the 400 level that ran north and south. Recently they came upon a narrow seam of rich quartz that bore toward the west. As they followed this it circled round until it is now going directly west, and from being a mere seam it has attained a width of two and a half feet.

This deposit appears to be making toward the west wall—which is still a considerable distance away—and is so steadily widening that the men working it are confident that it will lead them to a big deposit. This deposit they expect to find against or near the footwall. The ore is black sulphuret and chloride of the richest kind. The first-class ore goes from \$500 to \$900 per ton, and the second-class about \$150. They yesterday shipped a lot of thirty tons of second-class ore to the Douglas mill, Carson river.

The deepest point ever attained in the mine was but 1,000 feet, and very little prospecting was done at that depth. As the big bonanza in the California and Consolidated Virginia was not found until a depth of 1,400 feet had been attained, there would certainly seem to be a chance for a big mine in the Baltimore ground. They must get their first bonanza where they are now at work, and their second somewhere below the 1000 level.

THE TELEPHONE AT SEA.—The telephone has been used successfully in France to communicate between a vessel being towed and one towing. The wire was carried along one of the hawsers, and the circuit was completed through the copper on the bottoms of the ships and the water. Conversation was carried on very distinctly.—Scientific American.

## No Rest for the Wicket.

Almost everybody can manage to dodge this hot weather except the cook and the man who provides refreshing beverages, and of such is George Becker, of the Pacific Brewery. The demand for his beer this hot weather has increased so rapidly that he and his employees are compelled to work at all hours, hot or no hot, in order to fill orders.

## Postal Cars on the C. &amp; C.

Arrangements have been perfected for putting on mail cars on the Carson and Colorado Railroad, to run from the Mound House to Bishop Creek, Mono county, Cal. ## The Caledonia Picnic.

It will be held at Treadway's Park, Carson, Saturday, August 4. They offer, as usual, a great number of valuable prizes and a great deal of fun of all kinds. There will be something to suit all tastes.

## What They Think of Him at Home.

The local papers of Carbondale, Illinois, the home of Prof. Foster, the new Principal of the Reno Public School, and where the Prof. acted as Principal of the State Normal School for many years, has the following good word to say for him. It says: "With the close of this school year we lose an active, efficient and respected member of the faculty. Prof. Foster was one of the original corps, having been with the institution since the opening of its doors nine years ago. During all this time we have never heard a word spoken of him except in praise. The hundreds of students that have gone out from the University are each one, his warm personal friend, and have for him feelings of deepest love and respect. As a citizen of Carbondale he is without an enemy. None there are who do not regret that circumstances have necessitated his departure from among them. His work, outside of the University, has added to his reputation as an educator, and his name is frequently mentioned in flattering terms by his co-laborers. This part of the State is better for Prof. Foster having lived in it. But the health of his estimable wife is broken down, and a change of climate is demanded. He goes to Reno, Nevada, where, we trust, he will find as pleasant a home as he has had in Carbondale."

## Generosity Unrewarded

During school vacation the boys are endeavoring to turn an honest penny by assisting the City Marshal in corraling tagless dogs. Yesterday two of these energetic little fellows took to the pound a stray and pitiless looking canine which they had found at large without the legal permit. Upon examination Constable Nash came to the conclusion that it was a valuable shepherd dog belonging to Jack O'Brien, and advised the boys to take it to Mr. O'Brien and if the dog was his to collect a half dollar for their trouble. They started, but had not gone far, when they were intercepted by Pat Malloy, who laid claim to the dog, and not only refused to pay the boys their fee but kept their rope. The boys returned and reported their misfortune to the Constable, who sympathizing with the youthful victims of "good intentions," paid the fee himself remarking that he considered it a genuine instance of "unrewarded generosity." If the boys don't make it hot for that dog if he stays in town without a tag then the Journal has a wrong conception of the true inwardness of "young America."

## Mending the Ways.

The County Commissioners (wisely we think) started in about a month ago to have all the county bridges thoroughly repaired. M. J. Smith, a thorough mechanic, who understands the business, was employed to supervise the work. The bridge between Verdi and Crystal Peak, which was considered impassable, has been put in first-class condition, in fact, is stronger and better than when it was first constructed. The next job will be the Glendale bridge, which is in a horrible condition, liable to go into the river of its own weight any day. The lumber and material will all be on the ground Saturday and the work of repairing will commence Monday, and will be completed by the time the farmers are done harvesting, when they will need the bridge badly.

## Why Not in Nevada?

A sort of artesian well mania has seized the people of Denver, Colorado. Within the city limits there are more than a dozen of those wells yielding copious streams. The last vein, tapped at a depth of 390 feet, throws a stream of water four inches in diameter to a height of forty feet above the surface. Enough water, if properly managed, to irrigate 160 acres of land. There are hundreds of places in Nevada, surrounded by magnificent agricultural lands where the same result can be accomplished.

## Coming to the Front.

Since Nick Hamersmith opened the Wine House barber shop his business has increased so rapidly that he has found it necessary to send below for an assistant. The tonsorial gentleman, and a first-class artist, too, is expected upon this morning's train, when Nick will be able to accommodate all old friends and as many new ones as may give him a call.

## On the Wing.

Senator J. T. Williams, of Nye county, came in from the East yesterday. He got off here and will go through to California via the Carson and Colorado road. He said it would take a little more time and was somewhat more expensive but he desires to take a look at the country through which that road passes.

## Under the Weather.

Mr. Painter, of the firm of Painter & Blakeless, is quite sick with bilious fever, and has been confined to his bed for several days. Yesterday his friends were quite anxious about him. He was reported better last evening.

## Probate Matter.

The Clerk has posted notices of the following probate matters to be disposed of in the District Court on the 21 instant, one week from to-morrow.

J. P. Foulks, Administrator of the estate of Herbert Dickay, deceased. Hearing final report and discharge of the Administrator.

Hearing report of Rosa Oakes, Administratrix of the estate of M. Oakes, deceased; application for final decree discharge of the Administratrix.

In the estate of Syrona Boynton, deceased, Eugene Griswold, the Administrator, submits his final report and asks to be discharged.

In the estate of Geo. W. Gear, J. P. Foulks, the Administrator makes a report of his stewardship, thus far in the matter.

In the estate of Wm. Duck, deceased, Jerry Schooling, the Administrator, reports progress and asks for an order to sell all the personal effects belonging to the estate.

## A Raid on Truckee Roughs.

For a long time past opium fiends, vagrants, tramps and the rough scuff of that State have flocked into the little town of Truckee, and have made it their headquarters. So great has the influx of these characters been that the business men of that place determined, as a last resort, to make an example, so that immigration might be stopped. Accordingly a raid has been made on the public streets, and some twenty criminals arrested and charged with vagrancy and other petty offences. More arrests are to follow. It is claimed that the "G.O.P." will be organized.

## K. of P. Picnic.

Great preparations are being made for the picnic of the Knights of Pythias, which will be given at Treadway's Park, Carson, next Saturday, July 14. There will be all kinds of matches and games, and very valuable and desirable prizes will be given. All the mining Superintendents have agreed that such of their men as desire to attend may do so without danger of losing their places. All they have to do is to give their usual notice.

## Could Hardly Stand on Her Feet.

R. V. Pierce, M. D., N. Y.: Dear Sir: I must tell you what your medicine has done for me. Before taking your "Favorite Prescription" I could hardly stand on my feet; by following your advice, I am perfectly cured. The "Favorite Prescription" is a wonderful medicine for debilitated and nervous females. I cannot express how thankful I am to you for your advice. Yours truly, Mrs. CORNELIA ALLEMAN, Peosta, Ia.

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw-lyr.

The most healthy and popular drink of the season is the ice cold soda water, sparkling with purest gas and flavored with true, delicious fruit syrups, to be had only at Queen's soda fountain.
